APPLICATION

LAND DEVELOPMENT ACTIVITIES IN THE FLOODPLAIN

File # _____

Fee: \$140 (Large, complex projects requiring intensive staff review may be billed actual cost.)

Applicant's Name: _____ **Daytime Phone:** _____

Address: _____ **Alternate Phone:** _____

City & Zip: _____ **Email:** _____

Owner's Name: _____ **Daytime Phone:** _____

Address: _____ **Alternate Phone:** _____

City & Zip: _____ **Email:** _____

Contractor's Name: _____ **Daytime Phone:** _____

Address: _____ **Alternate Phone:** _____

City & Zip: _____ **Email:** _____

Other individuals you want to receive notice of this application:

Name

Address

City & Zip

Assessor's Map & Tax Lot Number: T _____ S, R _____ W, Section(s) _____, Tax Lot(s) _____

Name of Waterway: _____ Acreage: _____ Zone: _____

Flood Insurance Rate Map (FIRM) Panel No. _____

Existing Structures: _____

Current use(s) of property: _____

Estimated Start Date: _____ Estimated Completion Date: _____

Please attach a written statement and documentation addressing the following questions:

1. What type of land development activity will take place (i.e., mining, dredging, filling, grading, paving, excavation, drilling, or other)?
2. What type of material will be removed or used for fill?

3. The current grade elevation of the location of the proposed activity is _____ m.s.l. (This information might be available from the Public Works Department.)
Source of data: _____
4. The Base (100-year) Flood Elevation (BFE) at the location of the proposed activity is _____ m.s.l.
Source of data: _____
5. Is the proposed activity to occur within a floodway: Yes _____ No _____ Floodway Undesignated _____
6. If the project is for in-stream habitat restoration, provide the following information:
- Documentation that the project qualifies for a Department of the Army, Portland District *Regional General Permit for Stream Habitat Restoration* (NWP-2007-1023);
 - A feasibility analysis and certification that the project was designed to keep any rise in 100-year flood levels as close to zero as practically possible given the goals of the project prepared by a qualified professional (a Registered Professional Engineer; or staff of NRCS; the county; or fisheries, natural resources, or water resources agencies);
 - Documentation that no structures would be impacted by a potential rise in flood elevation; and,
 - A written statement identifying how monitor the project will be monitored, how problems will be corrected, and how you will ensure that flood carrying capacity remains unchanged.
7. Attach plans, engineering calculations and other information necessary to demonstrate compliance with the following, and to describe the location, design, and elevation of the proposed activity.
- Describe whether the proposed activity will cause a negative effect on surrounding properties by changing the flow of floodwaters or increase flood elevations in the immediate vicinity. Describe the basis for your conclusions.
 - If the proposed activity is located in a designated **floodway** the applicant must demonstrate that the cumulative impact of the proposed development will not increase the elevation of the base flood. A licensed architect or professional engineer must certify to this fact.
 - If the proposed activity is located in an area which is **outside the floodway**, the applicant must clearly demonstrate that the elevation of the base flood will not increase more than one (1) foot. Please use attachments to demonstrate compliance.
8. Do you plan any mitigative measures to alleviate potential impacts described in #7 above? Please describe.
9. If you have applied for a permit from the following state agencies, include a copy with this application packet and explain:
- Department of State Lands (503-378-3805) for alteration to wetlands, a stream channel or body of water;
 - Department of Water Resources (503-378-8130) for creating a water impoundment;
 - Department of Geology and Mineral Industries (503-378-3066) for extraction and exploration for minerals or aggregate.
10. Attach an accurate scale drawing of the property, showing the locations of existing structures, roads, water supply, subsurface sewage system, easements, driveways, etc., and the location of all proposed development, structures, and/or improvements. Show setback distances to property lines for all improvements. Label all tax lot(s).
11. Attach a copy of the portion of the Flood Insurance Rate Map that pertains to the property and indicate the location of the proposed development activities.
12. Is the only access or proposed access to the property via a road that crosses a railroad? Yes _____ No _____
If yes, please draw the location on your map and describe.
