Funding Sources for Agricultural Land Uses

Long term Funding:

USDA-FSA

CREP—Conservation Reserve Enhancement Program

- To restore riparian habitat and protect surface water quality on agricultural lands.
- Participants receive rental payments and cost-share assistance to create conservation buffers along waterways (of minimum widths 35' min, 180' max) on marginal pastureland for 10 or 15 year contracts.

Contact FSA Tangent office 541-967-5925 x190

<http://www.fsa.usda.gov/FSA/webapp?area=home&subject=copr&topic=cep>

USDA-NRCS

WRP—Wetland Reserve Program

- To protect, restore, and enhance the original hydrology, native vegetation, and natural topography of certain agricultural lands.
- Participants can choose a permanent or 30-year easement, or a restoration cost-share agreement (generally 10 years).

<http://www.nrcs.usda.gov/programs/wrp/>

USDA-NRCS

WHIP—Wildlife Habitat Incentives Program

- To improve habitats that connect upper and lower watershed habitats, protect and enhance native plant communities, improve salmon habitat, increase biodiversity, and increase habitat for threatened and endangered species
- Participants receive cost-share assistance to improve habitat.

<http://www.nrcs.usda.gov/programs/whip/>

Contact NRCS Tangent office

541-967-5925 x191

USFWS

Partners for Fish and Wildlife Program

- Wetland restoration projects on private lands.
- To help meet the habitat needs of Federal Trust Species including migratory birds, threatened and endangered species, anadromous fish and marine mammals.

Contact USFWS Portland office 503-231-6179

<http://www.fws.gov/partners/>

Riparian Tax Incentive Program

- Offers a property tax incentive to property owners for improving or maintaining qualifying riparian lands. Under this program, property owners receive complete property tax exemption for their riparian property. This can include land up to 100 feet from a stream.
- A landowner and the Oregon Department of Fish and Wildlife must sign a riparian management plan and agreement. A management plan must detail measures the landowner will implement to preserve, enhance or restore the riparian area.

Patty Snow, 503-947-6089

http://www.dfw.state.or.us/lands/tax_overview.asp

Short-term, One time grants:

ODFW

Access & Habitat Program

- To improve public hunting access and wildlife habitat on private lands in Oregon.
- Local ODFW wildlife biologist provides assistance in drafting a proposal.

South Willamette Watershed District Office

7118 NE Vandenberg Ave, Corvallis, OR 97330

541-757-4186 x237, Jim Young

<http://www.dfw.state.or.us/AH/>

Western Oregon Stream Restoration Program (WOSRP)

- Provides direct technical support to Watershed Councils and private landowners in western Oregon to implement Oregon Plan measures directing the restoration and enhancement of Oregon's salmonid habitats in the region.
- This includes projects to increase instream habitat complexity by adding large wood or boulders, enhancing riparian areas by protection or planting, and correcting fish passage problems.

Salem Program Coordinator, Joseph Sheahan

3406 Cherry Ave NE, Salem, OR 97303

Joseph.E.Sheahan@state.or.us

503-947-6091

OWEB—Oregon Watershed Enhancement Board

Small Grant Program

- A competitive grant program that awards funds of up to \$10,000 for on-the-ground restoration projects.
- Landowners work with local Watershed Council or Conservation District to apply for grant.

Wendy Hudson, Willamette Basin Representative (503) 986-0061 Phone;

wendy.hudson@state.or.us

http://www.oregon.gov/OWEB/GRANTS/smgrant_main.shtml

Oregon State Weed Board Grant Program

- The Oregon State Weed Board (OSWB) funds noxious weed control projects through annual grants available to private landowners. In particular, the OSWB funds projects that restore, enhance or protect fish and wildlife habitat, watershed function, and native salmonid or water quality. –all properties qualify

Phone: (503) 986-4621
