SIGNATURE _____

GENERAL PROVISIONS

1. When the roadway is to be excavated, the pavement shall be cut with neat, straight lines.
2. Backfill shall be compacted in 6" lifts with vibratory compaction 95% relative maximum density.
3. Backfill in the roadway section and shoulder area shall consist of 3/4"-0 material or controlled density fill (maximum 500 psi).
4. After backfill has been completed, and 95% compaction has been achieved, the pavement shall then be cut two (2) feet on both sides of the original cut and excavated to a depth of six (6) inches. Then a six (6) inch thick patch of O.S.H.D. Class "C" asphaltic concrete shall be laid in two (2) compacted lifts of three (3) inches each.
5. **Work not completed to the satisfaction of the Public Works Department shall be corrected by the permit holder within thirty (30) days notice, or it shall be corrected by County forces at the permit holder's expense.**
6. The applicant shall be responsible and liable for all accidents, damage or injury to any person or property resulting from the construction, maintenance repair, operation or use of said facility.
7. The County reserves the right to require the removal or replacement of any facility if the County decides that it is in the best interest of the County.
8. In the work performed under this permit, the applicant agrees that there shall be no interference with normal road maintenance.
9. **Contractors will notify Benton County forty-eight (48) hours before start of construction.**
10. Contractors will have a set of plans stamped and approved by Benton County and a signed copy of this permit on the job before starting construction.
11. The applicant shall indemnify and hold harmless the members, officers, employees and agents of Benton County from any claim that might arise from the granting of this permit and from any operation covered under this permit.
12. Where standard warnings are required, such signs shall be furnished by the applicant and placed by the applicant to the satisfaction of the Public Works Department.
13. Any improvement of the facility shall be done under the authority of a new permit.
14. No facility shall be constructed on the public right of way until a signed copy of this permit is returned to the applicant.
15. Applicant/Contractor shall be responsible for all utility line locates (1-800-332-2344).
16. Traffic Flagging will be performed by Certified Flaggers only.
17. The applicant shall comply with all local, state and federal laws, including but not limited to, the Federal and State Endangered Species Acts, and shall be responsible for obtaining any required approvals from federal and/or state regulatory agencies.
