II. SPECIAL GUEST(S): (None)

III. OLD BUSINESS:

- **TSP Review** – Owen informed the Committee that the next steps include 1) existing conditions, 2) standards, 3) proposed projects (Owen to send information to Committee members). He also noted that the website for the County TSP is still being updated.

Community input for chip seal was requested to get information to the County on most heavily used roads, especially for bikes. The input would be helpful to include with a map to show where repairs are needed. Owen will have the areas

specified on the handout he provided, be put on a map by the GIS Department then he will distribute it to the Committee.

- **Action item: Owen to have GIS Department create map then distribute to Committee.**
- Advisory Cycling Lanes – Concern was expressed for mix on roads so geometrics would not be a good idea, so it was suggested that sharrows be used instead.
- **Action item: Laurel will attend future meeting to review design plans and discuss concerns with the Committee.**
- Other – (None)

IV. NEW BUSINESS:
