## District Statement

---

This is an annual budget. The fiscal year will begin July 1, 2019, and ends on June 30, 2020.

This budget was built with no increase in rates. The last rate increase was in 2018. The district has no personnel. All services and support are provided by county operating departments as discussed above.

As the system has continued to age, improvements have been made as funding has allowed. Infrastructure improvements and modernization are becoming needed. County staff are starting the process of looking for alternative funding to upgrade and modernize this system. This may be a lengthy project and therefore we hope is completed before we experience a catastrophic failure. More information will be available as this process continues.

The County Financial Services department has done a review and revision of the County's financial policies. In the past County Utilities Service Districts had the Central County Overhead Charges limited to 8% of budgeted expenditures for the operating cost centers and 4% of budgeted expenditures for reserve cost centers. The new policy removes these caps and the Districts will be responsible for paying their full allocation of Central County Overhead charges. This policy was fully implemented this year and has added an additional annual cost of \$6,009. This increase has been incorporated into the budget and will reduce the district's ability to build reserves. This increase will leave the district with a very small balance and will likely lead to a significant rate increase in 2020.
