DISTRICT OVERVIEW:

To operate a successful and efficient system within the requirements of the Oregon Water Resources Division, the Subdivision Water Management Plan, and operating ordinances.

To provide operation and maintenance of a community water system in the Cascade View Subdivision approximately 5 miles North of Corvallis. The water system was designed to serve a subdivision of 44 lots and 16 off-site connections if requested.

The district was organized as a condition of subdivision development to operate a water system and monitor water usage.

The district is a separate municipal entity from the County, but by law the Governing Body is the Benton County Board of Commissioners. Daily operations of the district are delegated to the Facilities & Utilities Division of the County Public Works Department. The County Financial Services department coordinates the budget process and provides treasury management and other financial services. Public Works manages the billing and daily accounting processes. The county is reimbursed from district funds for administrative expenses.

Currently, the District serves 49 customers. An advisory committee reviews district operations and makes recommendations to the governing body on issues and rates.

CASCADE VIEW COUNTY SERVICE DISTRICT

District Statement

The annual budget covers the fiscal year beginning July 1, 2019 and ending June 30, 2020.

The budget was built on the assumption of no increase or changes in rates or charges. The district has no personnel. All services and support are provided by county operating departments as discussed above.

The district is in good financial condition. They continue to build reserves in both operations and capital.

The County Financial Services department has done a review and revision of the County's financial policies. In the past County Utilities Service Districts had the Central County Overhead Charges limited to 8% of budgeted expenditures for the operating cost centers and 4% of budgeted expenditures for reserve cost centers. The new policy removes these caps and the Districts will be responsible for paying their full allocation of Central County Overhead charges. This policy was fully implemented this year and has added an additional annual cost of \$2,494. This increase has been incorporated into the budget and will reduce the district's ability to build reserves.
