1. Attach project drawings and a location map. Drawings must be to scale with a north arrow, and illustrate all property boundaries, the full extent(s) of the disturbed area(s), all existing structures, roads and driveways, and the ESC BMP measures employed.

2. Describe the project: _____

3. Cumulative Disturbance Area (includes all grading, excavating, other ground disturbing activity)
Is the Cumulative Disturbance Area equal to or greater than 1 acre (43,560 sq.ft.)? **Note:** An Oregon Department of Environmental Quality 1200-C permit is also required if disturbance area is greater than or equal to 1 Acre.
 YES. Disturbance Area = _____

NO. However, the ground-disturbing activity is part of a larger common plan of development or sale that will involve a total disturbed area of 1 acre or more.

Note: An ESC Permit *may* be waived for a phased activity in which the cumulative disturbed area is 1 acre or larger if all individual phases disturb less than 1 acre of land and each phase is fully and permanently stabilized prior to initiation of ground disturbance on a subsequent phase. Please notify Benton County when this is the case.

4. Will the project involve any off-site work?

YES NO UNKNOWN

Location and description of off-site work*: _____

*Off-site work may require an additional erosion control permit, not necessarily from Benton County.
This application does NOT replace requirements for other permits including but not limited to Road Approach, Work in the County Right of Way, Building, Site Development, Land Development Activities in the Floodplain, issued by Benton County, the Department of Environmental Quality, Department of State Lands and/or U.S. Army Corps of Engineers. All required permits and approvals must be obtained and completed under applicable local, state, and federal law.

By signing this form, I certify that I am the Property Owner's authorized agent/contractor, and I acknowledge and agree that employees of Benton County shall have authority to enter the project site at all reasonable times for the purpose of inspecting project site conditions and gathering information related to the project site. I certify that I am familiar with the information contained in this document, and to the best of my knowledge and belief, this information is true, complete, and accurate.

Contractor's Name (print): _____ **Title:** _____

Signature: _____ **Date:** _____

I hereby certify that I am the legal owners(s) or contract purchaser(s) of the above noted property and that the information contained herein is true, complete, and accurate to the best of my knowledge and belief. I acknowledge and agree that employees of Benton County shall have authority to enter the project site at all reasonable times for the purpose of inspecting project site conditions and gathering information related to the project site. I acknowledge that under Benton County Code, the property owner is legally responsible for compliance with the County's erosion and sediment control rules.

Please complete pages 1 and 2 of this application and submit the application with required documentation and the fee. The package may be submitted via U.S. Post or hand delivered to Benton County Public Works Department. (Contact information on page 1.) The planner and then Public Works Engineering will complete page 3 and return a copy of this application to you. Then follow the instructions on page 3, and Public Works can review and authorize the project.

County Planning Division Use Only

TRS TL _____ Planner _____ Date _____

Bldg Permit # and/or LU file # and description: _____

(Circle/fill in) City of Philomath City of Adair Within UGB of _____ Zone(s) _____

Notes from PP, W, PR, and SP:

Required Level of Erosion Control (circle)	Low	Medium	High
Minimum distance between the work site and the nearest Sensitive Area down-slope or at the same elevation. Sensitive Areas include: (a) Wetlands identified on a National, State or Local Wetland Inventory, or identified as Potential Wetland on the Benton County Goal 6 Map; (b) Stream Channel; (c) Riparian Area protected pursuant to BCC Chapter 88 or the underlying zone; (d) Upland Prairie and Oak Savannah protected pursuant to BCC Chapter 88. (e) Known endangered animals	More than 300 feet <input type="checkbox"/>	100 to 300 feet <input type="checkbox"/>	Within 100 feet <input type="checkbox"/>
Average slope across the disturbed area.	0 to 3.9 percent <input type="checkbox"/>	4 to 10 percent <input type="checkbox"/>	More than 10 percent <input type="checkbox"/>
Erodibility of predominant soil, per NRCS Soil Survey (or successor document) Soil: _____	Low Erodibility (k-factor <0.24) <input type="checkbox"/>	Medium Erodibility (k-factor 0.24 to 0.4) <input type="checkbox"/>	High Erodibility (k-factor > 0.4) <input type="checkbox"/>

The column with two or more boxes checked determines the required level of erosion control. In the case of a check in each column, the Medium level is required. (A subdivision is considered a High impact site unless deemed otherwise by the County Engineer.) **Erosion control requirements are cumulative (e.g., if High is assigned, Low, Medium, and High BMPs shall be utilized).**

General Provisions Required by Benton County Public Works

The required level of erosion and sediment control is _____. Please see the attached Best Management Practices checklist for this level.

Additional Requirements:

Applicant: The site plan submitted with this application for this assessment may require modification and/or additional notes or narrative demonstrating compliance with the required level of BMPs. Modifications to the existing drawings must be to scale, include a north arrow, and illustrate all property boundaries, the full extent(s) of the disturbed area(s), all existing structures, roads and driveways, and the BMP measures employed.

Upon review of the modifications, Public Works will review the drawings and issue comments or approval.

Benton County Public Works has reviewed the final submittals for the proposed work and BMPs described in this Erosion and Sediment Control permit application, and hereby authorizes the work in accordance with the applicable sections of the County Code:
