

Chapter 55

Exclusive Farm Use Zone (EFU)

55.005 Purpose of the Exclusive Farm Use Zone.

- (1) The Exclusive Farm Use Zone (EFU) shall preserve and protect lands for continued and future commercial agricultural production and related uses, and conserve and protect open space, wildlife habitats, and other uses associated with agriculture. Except as otherwise provided by this code, the Exclusive Farm Use Zone shall preserve and maintain areas classified for farm use free from conflicting nonfarm uses and influences.
- (2) Uses of land not compatible with the purpose of the Exclusive Farm Use Zone shall be prohibited to minimize potential hazards of damage from erosion, pollution, conflicting land uses, and further depletion of agricultural land resources. [Ord 26, Ord 90-0069]

APPLICATION OF THE ZONE

55.015 Standards for Application of the Exclusive Farm Use Zone.

- (1) The Exclusive Farm Use Zone is applied to lands classified by the U.S. Soil Conservation Service as predominantly Class I-IV soils which are not otherwise subject to an exception of the statewide planning goals. The Exclusive Farm Use Zone is also applied to other lands necessary to preserve and maintain farm use consistent with existing and future needs for agricultural production. Soil capability classifications are indicated by the nature and type of soil, size and location of the property, the suitability of the terrain, and other similar factors. The Exclusive Farm Use Zone is also applied to intervening lands in different soil classes which are suitable for farm use or needed to permit farm practices to be undertaken on adjacent or nearby agricultural lands. [Ord 26, Ord 90- 0069, Ord 93-0098]
- (2) High-value farmland means land in a tract:
 - (a) Composed predominantly of soils that are classified prime, unique, Class I or Class II when irrigated or not irrigated; or
 - (b) Located east of the summit of the Coast Range, and composed predominantly of the following soils in Class III or IV or composed predominantly of a combination of the soils described above and the following soils:
 - (A) Subclassification IIIe, specifically, Bellpine, Bornstedt, Burlington, Briedwell, Carlton, Cascade, Chehalem, Cornelius Variant, Cornelius and Kinton, Helvetia, Hillsboro, Hullt, Jory, Kinton, Latourell, Laurelwood, Melbourne, Multnomah, Nekia, Powell, Price, Quatama, Salkum, Santiam, Saum, Sawtell, Silverton, Veneta, Willakenzie, Woodburn and Yamhill:
 - (B) Subclassification IIIw, specifically, Concord, Conser, Cornelius Variant, Dayton (thick surface) and Sifton (occasionally flooded);
 - (C) Subclassification IVe, specifically, Bellpine Silty Clay Loam, Carlton, Cornelius, Jory, Kinton, Latourell, Laurelwood, Powell, Quatama, Springwater, Willakenzie and Yamhill; and
 - (D) Subclassification IVw, specifically, Awbrig, Bashaw, Courtney, Dayton, Natroy, Noti and

Whiteson; or

- (c) Located west of the summit of the Coast Range, and growing specified perennials as demonstrated by the most recent aerial photography of the Agricultural Stabilization and Conservation Service of the U.S. Department of Agriculture (USDA) taken prior to November 4, 1993. "Specified perennials" means perennials grown for market or research purposes including, but not limited to, nursery stock, berries, fruits, nuts, Christmas trees, or vineyards, but not including seed crops, hay, pasture or alfalfa; or
 - (d) Located west of the summit of the Coast Range and used in conjunction with a dairy operation on January 1, 1993, and composed predominantly of the following soils or a combination of the soils identified in subsection (2)(a) and the following soils:
 - (A) Subclassification IIIe, specifically, Astoria, Hembre, Knappa, Meda, Quillayutte and Winema;
 - (B) Subclassification IIIw, specifically, Brenner and Chitwood;
 - (C) Subclassification IVe, specifically, Astoria, Hembre, Meda, Nehalem, Neskowin and Winema; and
 - (D) Subclassification IVw, specifically, Coquille. [Ord 94-0108; Ord 2000-0157; Ord 2015-0268]
- (3) For purposes of approving a land use application on high-value farmland under the lot-of-record provisions of BCC 55.230:
- (a) Soil classes, ratings or other soil designations used in or made pursuant to this section are those of the Natural Resources Conservation Service (NRCS) Internet soil survey for that class, rating or designation before November 4, 1993, except for changes made pursuant to subsection (b) of this section. *{OAR 660-033-0030(7)(b)}*
 - (b) The county may change the soil class, soil rating or other soil designation of a specific lot or parcel if the property owner:
 - (A) Submits a statement of agreement from NRCS that the soil class, soil rating or other soil designation should be adjusted based on new information; or
 - (B) Submits:
 - (i) A report from a soils scientist whose credentials are acceptable to the Oregon Department of Agriculture (ODA) that the soil class, soil rating or other soil designation should be changed; and
 - (ii) A statement from ODA that the Director of Agriculture or the director's designee has reviewed the report described in subsection (3)(b)(B)(i) of this section and finds the analysis in the report to be soundly and scientifically based.
- {OAR 660-033-0030(7)(a)}* [Ord 2000-0157; Ord 2001-0174; Ord 2015-0268]
- (4) For the purposes of determining whether a tract is "High-value farmland" during review of a land use application pursuant to provisions of this chapter other than BCC 55.230, soil classes, ratings or other soil designations used in or made pursuant to this section are those of the NRCS Internet survey as of January 2, 2012 for that class, rating or designation. *{OAR 660-033-0030(8)}*
- (5) More detailed data on soil capability than is contained in the USDA NRCS soil maps and soil surveys may be used to define agricultural land in land use proceedings identified in subsections (a) and (b) below. However, the more detailed soils data shall be related to the NRCS land capability classification system and shall be prepared pursuant to OAR 660-033-0030(5) and -0045. After October 1, 2011, only those soils assessments certified by DLCD may be considered by the county in

land use proceedings for:

- (a) A Comprehensive Plan Map and Zoning Map amendment from Agriculture and Exclusive Farm Use (respectively) to a non-resource plan designation and zone on the basis that such land is not “agricultural land”; and
- (b) Excepting land use decisions under subsection (3) of this section, any other proposed land use decision in which more detailed data is used to demonstrate that land planned and zoned for Exclusive Farm Use does not meet the definition of agricultural land under OAR 660-033-0020(1)(a)(A).

{OAR 660-033-0030(5)} [Ord 2000-0157; Ord 2001-0174; Ord 2006-0214; Ord 2015-0268]

55.020 Definitions. As used in this chapter:

- (1) “Accepted farming practice” means a mode of operation that is common to farms of a similar nature, necessary for the operation of such farms to obtain a profit in money, and customarily utilized in conjunction with farm use.
- (2) “Farm operator” means a person who operates a farm, doing the work and making the day-to-day decisions about such things as planting, harvesting, feeding and marketing.
- (3) "Farm or ranch operation" means all lots or parcels of land in the same ownership that are used by the farm or ranch operator for farm use as defined in ORS 215.203.
- (4) "Irrigated" means watered by an artificial or controlled means, such as sprinklers, furrows, ditches, or spreader dikes. An area or tract is "irrigated" if it is currently watered, or has established rights to use water for irrigation, including such tracts that receive water for irrigation from a water or irrigation district or other provider. For the purposes of this division, an area or tract within a water or irrigation district that was once irrigated shall continue to be considered "irrigated" even if the irrigation water was removed or transferred to another tract.
- (5) “Winery” means a facility that produces wine pursuant to BCC 55.150. [Ord 2015-0268]

55.030 Date of Creation and Existence. When a lot, parcel or tract is reconfigured pursuant to applicable law after November 4, 1993, the effect of which is to qualify a lot, parcel or tract for the siting of a dwelling, the date of the reconfiguration is the date of creation or existence. Reconfigured means any change in the boundary of the lot, parcel or tract. [Ord 2006-0214]

55.050 Notice of Pending Action. Notice of all land use applications for new permanent dwellings and land divisions in the Exclusive Farm Use Zone shall be mailed to the Department of Land Conservation and Development at their Salem office at least ten (10) days prior to the date of the decision or permit issuance. The notice shall contain the information set forth in BCC 51.615. [Ord 94-0108, Ord 2006- 0214]

55.075 Period of Validity of Discretionary Decisions.

- (1) A discretionary decision, except for a dwelling listed in subsection (2) of this section or a land division, approving a proposed development on Exclusive Farm Use land outside an urban growth boundary is void two years from the date of final decision, if the development action is not initiated in that period.
 - (a) The Planning Official may grant one extension for a period of up to 12 months if the applicant makes a written request for an extension prior to the expiration of the approval period. The applicant must state the reasons that prevented the applicant from initiating or continuing development within the approval period. In order to approve the extension, the Planning Official must determine that the applicant was unable to initiate or continue development during the approval period for reasons for which the applicant was not responsible. Approval of an extension is not a land use decision and is not subject to appeal as a land use decision. Additional one year extensions may be authorized where applicable criteria for the decision have not

changed. [Ord 94-0108; Ord 2001-0174; Ord 2015-0268]

- (2) A discretionary decision approving a dwelling pursuant to BCC 55.220 (non-farm dwelling) or 55.230 (lot-of-record dwelling) shall be void four years from the date of final decision, if the development action is not initiated in that period. “Development action” typically means the property owner has submitted a complete application for a building permit for the dwelling or manufactured dwelling placement permit.
 - (a) The Planning Official may grant one extension for two additional years.
 - (b) Five additional one-year extensions may be granted. Extensions shall only be granted if:
 - (A) The applicant makes a written request for the additional extension prior the expiration of an extension;
 - (B) The applicable residential development statute has not been amended following the issued land use decision; and
 - (C) An applicable rule or land use regulation has not been amended following the issuance of the land use decision, unless allowed by the county, which may require that the applicant comply with the amended rule or land use regulation.
- (3) Approval of an extension is not a land use decision and is not subject to appeal as a land use decision. [Ord 94-0108, Ord 2006-0214; Ord 2015-0268; Ord 2020-0297]

PERMITTED USES

The hunting preserve may include one sport clay station that existed on July 28, 2003, is used during the hunting season only for shooting practice in conjunction with hunting and is subordinate to the use of the land as a hunting preserve.
 - (b) A person engaged in farm or forest practices on lands devoted to farm or forest use may file a complaint with the County, alleging that the operation of the hunting preserve has adversely affected the complainant and:
 - (A) Forced a significant change in accepted farm or forest practices on surrounding lands devoted to farm or forest use; or
 - (B) Significantly increased the cost of accepted farm or forest practices on surrounding lands devoted to farm or forest use.

Uses in this section are permitted, provided the standards listed below are met.

- (1) **Ministerial Review.** The following uses are permitted subject to review for compliance with the standards listed. Such review is not a land use decision and no notice is required.

- (a) Farm Stand. A farm stand may be approved if:
 - (A) The farm stand is not used in conjunction with a marijuana crop;
 - (B) The structures are designed and used for the sale of farm crops or livestock grown on the farm operation, or grown on the farm operation and other farm operations in the local agricultural area, including the sale of retail incidental items and fee-based activity to promote the sale of farm crops or livestock sold at the farm stand if the annual sale of incidental items and fees from promotional activity do not make up more than 25 percent of the total annual sales of the farm stand; and
 - (C) The farm stand does not include structures designed for occupancy as a residence or for activity other than the sale of farm crops or livestock and does not include structures for banquets, public gatherings or public entertainment.
 - (D) As used in this section, "farm crops or livestock" includes both fresh and processed farm crops and livestock grown on the farm operation, or grown on the farm operation and other farm operations in the local agricultural area. As used in this subsection, "processed crops and livestock" includes jams, syrups, apple cider, animal products and other similar farm crops and livestock that have been processed and converted into another product but not prepared food items.

- (b) A site for the takeoff and landing of model aircraft, including such buildings or facilities as may reasonably be necessary. Buildings and facilities associated with a site for the takeoff and landing of model aircraft shall not be more than 500 square feet in floor area or placed on a permanent foundation unless the building or facility preexisted the use approved under this section. The site shall not include an aggregate surface or hard surface area unless the surface preexisted the use approved under this section. An owner of property used for the purpose authorized in this section may charge a person operating the use on the property rent for the property. An operator may charge users of the property a fee that does not exceed the operator's cost to maintain the property, buildings, and facilities. [Ord 2001-0174, Ord 2009-0232]
- (c) Utility facilities necessary for public service, including associated transmission lines as defined in ORS 469.300 and wetland waste treatment systems, but not including commercial facilities for the purpose of generating electrical power for public use by sale or transmission towers over 200 feet in height, and not including utility facility service lines as in BCC 55.106(1). *{ORS 215.283(1)(c)}*
 - (A) A utility facility is necessary for public service if the facility must be sited in an exclusive farm use zone in order to provide the service. To demonstrate that a utility facility is necessary, an applicant must:
 - (i) Show that reasonable alternatives have been considered and that the facility must be sited in an exclusive farm use zone due to one or more of the following factors:
 - (1) Technical and engineering feasibility;
 - (2) The proposed facility is locationally-dependent. A utility facility is locationally-dependent if it must cross land in one or more areas zoned for exclusive farm use in order to achieve a reasonably direct route or to meet unique geographical needs that cannot be satisfied on other lands;

- (3) Lack of available urban and nonresource lands;
 - (4) Availability of existing rights-of-way;
 - (5) Public health and safety; and
 - (6) Other requirements of state and federal agencies.
- (B) Costs associated with any of the factors listed in subsection (i) of this section may be considered, but cost alone may not be the only consideration in determining that a utility facility is necessary for public service. Land costs shall not be included when considering alternative locations for substantially similar utility facilities and the siting of utility facilities that are not substantially similar.
- (C) The owner of a utility facility approved under this section shall be responsible for restoring, as nearly as possible, to its former condition any agricultural land and associated improvements that are damaged or otherwise disturbed by the siting, maintenance, repair or reconstruction of the facility. Nothing in this subsection shall prevent the owner of the utility facility from requiring a bond or other security from a contractor or otherwise imposing on a contractor the responsibility for restoration.
- (D) The governing body of the county or its designee shall impose clear and objective conditions on an application for utility facility siting to mitigate and minimize the impacts of the proposed facility, if any, on surrounding lands devoted to farm use in order to prevent a significant change in accepted farm practices or a significant increase in the cost of farm practices on the surrounding farmlands.
- (E) Utility facilities necessary for public service may include on-site and off-site facilities for temporary workforce housing for workers constructing a utility facility. Such facilities must be removed or converted to an allowed use under the private campground provisions of BCC 55.210 or other provisions of this code when project construction is complete. Off-site facilities allowed under this subsection require conditional use approval pursuant to BCC 55.205. Temporary workforce housing facilities not included in the initial approval may be considered through a minor amendment request. A minor amendment request shall have no effect on the original approval.
- (F) In addition to the provisions of subsections (A) to (D) of this section, the establishment or extension of a sewer system as defined by OAR 660-011-0060(1)(f) in an exclusive farm use zone shall be subject to the provisions of OAR 660-011-0060.
- (G) The provisions of subsections (A) to (D) of this section do not apply to interstate natural gas pipelines and associated facilities authorized by and subject to regulation by the Federal Energy Regulatory Commission.
- (H) An associated transmission line may be approved pursuant to OAR 660-033- 0130(16)(b).
[Ord 2001-0174] {OAR 660-033-130(16)}

- (A) The issuance of a license, permit or other approval by the Department of Environmental Quality under ORS 454.695, 459.205, 468B.050, 468B.053 or 468B.055; or
 - (B) In compliance with rules adopted under ORS 468B.095.
- (e) A church, synagogue, temple, mosque, chapel, meeting house or other nonresidential place of

worship, and a cemetery in conjunction with such place of worship, subject to subsections (A) through (F) of this section.

- (A) The real property on which a place of worship is lawfully established may reasonably be used for activities customarily associated with the practices of the religious activity, including worship services, religion classes, weddings, funerals, child care and meal programs, but not including private or parochial school education for prekindergarten through grade 12 or higher education. {ORS 215.441}
 - (B) This use is not allowed on high-value farmland.
 - (C) No enclosed structure with a design capacity greater than 100 people, or group of structures with a total design capacity of greater than 100 people, shall be approved in connection with a place of worship within three miles of an urban growth boundary, unless an exception is approved pursuant to ORS 197.732 and OAR chapter 660, division 4.
 - (D) Any enclosed structures or group of enclosed structures described in subsection (C) within a tract must be separated by at least one-half mile. For purposes of this section, “tract” means a tract as defined by ORS 215.010(2) that is in existence as of June 17, 2010.
 - (E) A place of worship shall be allowed only upon determination by the Planning Official that the level of public facilities, including transportation, water supply, sewer and storm drain systems, is adequate for the proposed use, including the activities customarily associated therewith (as described in subsection (A) above). If conditions of approval restricting or limiting the proposed use are necessary to ensure adequacy of public facilities, the Planning Official shall approve the use and impose the necessary conditions rather than deny the use.
 - (F) Existing, lawfully established facilities wholly within the EFU zone may be maintained, enhanced or expanded on the same tract, subject to other requirements of law, but enclosed existing structures located in the EFU zone and within three miles of an urban growth boundary may not be expanded beyond the requirements of subsections (C) and (D). {OAR 660-033-0120, -0130(2)}
- (f) Composting operations and facilities limited to the following:
- (A) Facilities that are in conjunction with, and auxiliary to, farm use on the subject tract, and that meet the performance and permitting requirements of the Department of Environmental Quality under OAR 340-093-0050 and 340-096-0060. Excess compost may be sold to neighboring farm operations in the local area and shall be limited to bulk loads of at least one unit (7.5 cubic yards) in size. Buildings and facilities used in conjunction with the composting operation shall only be those required for the operation of the subject facility. A pre-application process is required under ORS 215.401.

 - (a) Forward the complaint to the operator of the use;
 - (b) Review the complaint in the manner set forth in ORS 215.402 to 215.438; and
 - (c) Determine whether the allegations made pursuant to subsection (1) of this section are true.
- (3) Upon a determination that the allegations of the complaint are true, the Planning Official at a minimum shall notify the violator that a violation has occurred, direct the violator to correct the conditions that led to the violation within a specified time period and warn the violator against the commission of further violations.
- (4) If the conditions that led to a violation are not corrected within the time period specified pursuant to subsection (3) of this section, or if there is a determination pursuant to subsection (2) of this section following the receipt of a second complaint that a further violation has occurred, the County at a minimum shall assess a fine against the violator.
- (5) If the conditions that led to a violation are not corrected within 30 days after the imposition of a fine pursuant to subsection (4) of this section, or if there is a determination pursuant to subsection (2) of this section following the receipt of a third or subsequent complaint that a further violation has occurred, the Planning Official shall at a minimum order the suspension of the use until the violator corrects the conditions that led to the violation.

If the user does not apply for approval within 21 days, the Planning Official shall order the suspension of the use until the user applies for and receives approval. NON-FARM DWELLINGS

55.220 Nonfarm Dwellings: Notice, Criteria and Conditions.

- (1) A dwelling not provided in conjunction with farm use may be allowed in the Exclusive Farm Use Zone

by conditional use permit approved by the Planning Commission. The decision to approve a conditional use permit for a nonfarm dwelling shall be based on findings that the proposed dwelling complies with BCC 53.215, BCC 53.220, BCC 55.215, and the following criteria:

- (a) East of the summit of the Coast Range
 - (A) The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through Class VIII soils that would not, when irrigated, be classified as prime, unique, Class I or Class II soils;
 - (B) The dwelling is situated on a tract that, as a whole, is generally unsuitable for the production of farm crops and livestock, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. If the parcel or lot is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel or lot;
 - (C) The dwelling will be sited on a lot or parcel created before January 1, 1993;
 - (D) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, the county shall consider the cumulative impact of possible new nonfarm dwellings and parcels on other lots or parcels in the area similarly situated; to address this standard, the county shall:
 - (i) Identify a study area for the cumulative impacts analysis. The study area shall include at least 2000 acres or a smaller area not less than 1000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or nonresource uses shall not be included in the study area.
 - (ii) Identify within the study area the broad types of farm uses (irrigated or nonirrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc.), and the dwelling development trends since 1993. Determine the potential number of nonfarm/lot-of-record dwellings that could be approved under subsection 55.220 and subsection 55.230 of this rule, including identification of predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under ORS 215.263(4). The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;
 - (iii) Determine whether approval of the proposed nonfarm/lot-of-record dwellings together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize

the overall character of the study area; and

(E) The dwelling complies with conditions imposed pursuant to BCC 53.220.

(b) West of the summit of the Coast Range:

(A)

(i) The dwelling is situated upon a lot or parcel, or a portion of a lot or parcel, that is generally unsuitable land for the production of farm crops and livestock or merchantable tree species, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract. A lot or parcel or a portion of a lot or parcel shall not be considered unsuitable solely because of size or location if it can reasonably be put to farm or forest use in conjunction with other land; and

(ii) A lot or parcel or a portion of a lot or parcel is not "generally unsuitable" simply because it is too small to be farmed profitably by itself. If a lot or parcel or a portion of a lot or parcel can be sold, leased, rented or otherwise managed as a part of a commercial farm or ranch, then the lot or parcel or portion of the lot or parcel is not "generally unsuitable". A lot or parcel or a portion of a lot or parcel is presumed to be suitable if it is composed predominantly of Class I-IV soils. Just because a lot or parcel or a portion of a lot or parcel is unsuitable for one farm use does not mean it is not suitable for another farm use; or

(iii) If the parcel is under forest assessment, the dwelling shall be situated upon generally unsuitable land for the production of merchantable tree species recognized by the Forest Practices Rules, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the parcel. If a lot or parcel is under forest assessment, the area is not "generally unsuitable" simply because it is too small to be managed for forest production profitably by itself. If a lot or parcel under forest assessment can be sold, leased, rented or otherwise managed as a part of a forestry operation, it is not "generally unsuitable". If a lot or parcel is under forest assessment, it is presumed suitable if it is composed predominantly of soils capable of producing 50 cubic feet of wood fiber per acre per year. If a lot or parcel is under forest assessment, to be found compatible and not seriously interfere with forest uses on surrounding land it must not force a significant change in forest practices or significantly increase the cost of those practices on the surrounding land;

(B) The dwelling will be sited on a lot or parcel created before January 1, 1993, or will be sited on a parcel created under BCC 55.328.

(C) The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern in the area, a county shall consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated by applying the standards set forth in BCC 55.220(1)(a)(B). If the application involves the creation of a new parcel for the nonfarm dwelling, a county shall consider whether creation of the parcel will lead to creation of other nonfarm parcels, to the detriment of agriculture in the area by applying the standards set forth in BCC 55.220(1)(a)(B); and

(D) The dwelling complies with conditions imposed pursuant to BCC 53.220.

(2) Where a proposed nonfarm dwelling would be located in a significant big game habitat area as identified in the Natural Resources and Hazards Background Report, the Planning Official shall

provide the Oregon Department of Fish and Wildlife an opportunity to comment on consistency with significant habitat values. The County will make findings regarding consistency. The Department of Fish and Wildlife shall be provided a minimum of ten (10) working days' notice prior to the decision on the conditional use permit.

- (3) As a condition of final approval of a conditional use permit to establish a nonfarm dwelling, the owner of the subject parcel or lot shall disqualify the parcel or lot for valuation for farm use or forest use. The County shall not issue a building permit for the construction of a nonfarm dwelling without evidence the parcel or lot has been disqualified from farm use valuation, and any additional tax or penalty imposed by the County Assessor, as required by State law, has been paid. [Ord 26, Ord 90-0069, Ord 93-0098, Ord 94-0108, Ord 2000-0157]
- (4) If a single-family dwelling is established on a lot or parcel as set forth in BCC 55.220 or BCC 55.230, no additional permanent dwelling may later be sited on the same lot or parcel under the non-farm dwelling (BCC 55.220), lot-of-record (BCC 55.230), or dwelling in the Forest Conservation zone (BCC 60.108 through 60.109) provisions. [Ord 94-0108; 2001-0174]
- (5) The property owner shall sign a covenant as required by BCC 55.405(6). [Ord 2001-0174; Ord 2006-0214; Ord 2015-0268]

LOT OF RECORD DWELLINGS

55.230 Lot of Record Dwellings.

- (1) A Lot of Record Dwelling may be approved on a pre-existing lot or parcel if:
 - (a) The lot or parcel on which the dwelling will be sited was lawfully created and was acquired and owned continuously by the present owner (as defined in BCC 55.230(1)(g)):
 - (A) Since prior to January 1, 1985; or
 - (B) By devise or by intestate succession from a person who acquired and had owned continuously the lot or parcel since prior to January 1, 1985;
 - (b) The tract on which the dwelling will be sited does not include a dwelling;
 - (c) If the lot or parcel on which the dwelling will be sited was part of a tract on November 4, 1993, no dwelling exists on another lot or parcel that was part of that tract.
 - (d) The proposed dwelling is not prohibited by, and will comply with, the requirements of the acknowledged comprehensive plan and land use regulations and other provisions of law;
 - (e) The lot or parcel on which the dwelling will be sited is not high-value farmland as determined using the soils designations specified in BCC 55.015(3). A lot-of-record dwelling on high-value farmland may be approved as provided in BCC 55.230(8) and (9); and
 - (f) When the lot or parcel on which the dwelling will be sited lies within an area designated in an acknowledged comprehensive plan as habitat of big game, the siting of the dwelling is consistent with the limitations on density upon which the acknowledged comprehensive plan and land use regulations intended to protect the habitat are based. Note: The Benton County Comprehensive Plan policies for big game habitat currently do not apply to land in the Exclusive Farm Use zone.
 - (g) For purposes of this subsection only, "owner" includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, nephew, stepparent, stepchild, grandparent or grandchild of the owner or a business entity owned by any one or a combination of these family members.
- (2) When the lot or parcel on which the dwelling will be sited is part of a tract, the remaining portions of the tract are consolidated into a single lot or parcel when the dwelling is allowed.

- (3) The property owner shall sign a covenant as required by BCC 55.405(6).
- (4) If a single-family dwelling is established on a lot or parcel as set forth in BCC 55.220 or BCC 55.230, no additional permanent dwelling may later be sited on the same lot or parcel under the non- farm dwelling (BCC 55.220), lot-of-record (BCC 55.230), or dwelling in the Forest Conservation zone (BCC 60.108 through 60.109) provisions.
- (5) A dwelling allowed under BCC 55.230 may be denied approval in any area where it is determined that approval of the dwelling would:
 - (a) Exceed the facilities and service capabilities of the area;
 - (b) Materially alter the stability of the overall land use pattern of the area; or
 - (c) Create conditions or circumstances that the county determines would be contrary to the purposes or intent of its acknowledged comprehensive plan or land use regulations.
- (6) The county assessor shall be notified that the governing body intends to allow the dwelling. [Ord 94-0108]
- (7) A property that has been granted an approval for a single-family dwelling under the provisions of BCC 55.230 may be sold or otherwise transferred to any other person. Unless the land use decision specifies a period of validity, the land use approval remains valid for the period allowed by law.

LOT OF RECORD DWELLING ON HIGH-VALUE FARMLAND CLASS I AND II SOILS.

- (8) Notwithstanding the requirements of BCC 55.230(1)(e), a single-family dwelling may be sited on high-value farmland as determined using the soils designations specified in BCC 55.015(3) if:
 - (a) It meets the other requirements of BCC 55.230(1) through (7);
 - (b) The lot or parcel is protected as high-value farmland as defined in BCC 55.015(2)(a); and
 - (c) The Planning Commission, determines that:
 - (A) The lot or parcel cannot practicably be managed for farm use, by itself or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. For the purposes of this section, this criterion asks whether the subject lot or parcel can be physically put to farm use without undue hardship or difficulty because of extraordinary circumstances inherent in the land or its physical setting. Neither size alone nor a parcel's limited economic potential demonstrate that a lot of parcel cannot be practicably managed for farm use. Examples of "extraordinary circumstances inherent in the land or its physical setting" include very steep slopes, deep ravines, rivers, streams, roads, railroad or utility lines or other similar natural or physical barriers that by themselves or in combination separate the subject lot or parcel from adjacent agricultural land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms. A lot or parcel that has been put to farm use despite the proximity of a natural barrier or since the placement of a physical barrier shall be presumed manageable for farm use.
 - (B) The dwelling will comply with the provisions of BCC 55.215.
 - (C) The dwelling will not materially alter the stability of the overall land use pattern in the area by applying the standards set forth in BCC 55.220(1)(a)(B).
 - (d) The County shall provide notice of all applications for dwellings allowed under this subsection to the Oregon Department of Agriculture. Notice shall be provided in accordance with BCC 51.605

through 51.630, but shall be mailed at least 20 calendar days prior to the public hearing before the Planning Commission.

LOT OF RECORD DWELLING ON HIGH VALUE FARMLAND CLASS III AND IV SOILS.

- (9) Notwithstanding the requirements of BCC 55.230(1)(e), a single-family dwelling may be sited on high-value farmland as determined using the soils designations specified in BCC 55.015(3) if:
- (a) It meets the other provisions of BCC 55.230(1) through (7) and (2);
 - (b) The tract on which the dwelling will be sited is:
 - (A) Identified in BCC 55.015(2)(b) or (d);
 - (B) Not high-value farmland defined in BCC 55.015(2)(a); and
 - (C) Twenty-one acres or less in size.
 - (c) The tract is:
 - (A) Bordered on at least 67 percent of its perimeter by tracts that are smaller than 21 acres, and at least two such tracts had dwellings on January 1, 1993;
 - (B) Not a flag lot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres and at least four dwellings existed on January 1, 1993, within one-quarter mile of the center of the subject tract. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary or
 - (C) A flag lot and is bordered on at least 25 percent of its perimeter by tracts that are smaller than 21 acres, and at least four dwellings existed on January 1, 1993, within 1/4 mile of the center of the subject tract and on the same side of the public road that provides access to the subject tract. The County must interpret the center of the subject tract as the geographic center of the flag lot if the applicant makes a written request for that interpretation and that interpretation does not cause the center to be located outside the flag lot. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary.
 - (i) "Flag lot" means a tract containing a narrow strip or panhandle of land providing access from the public road to the rest of the tract.
 - (ii) "Geographic center of the flag lot" means the point of intersection of two perpendicular lines of which the first line crosses the midpoint of the longest side of a flag lot, at a 90-degree angle to that side, and the second line crosses the midpoint of the longest adjacent side of the flag lot.

 - (d) A farm processing facility (BCC 55.106(1)(b)) if the land division would separate the processing facility from the farm operation.
- (3) The provisions of BCC 55.310 through 55.340 do not apply to:
- (a) The creation or sale of cemetery lots, if a cemetery is within the boundaries designated for a farm use zone at the time the zone is established; or

[Ord 2001-0174]
- (7) A dwelling that was approved as a nonfarm dwelling pursuant to BCC 55.220 or predecessor code provision shall be sited at least 300 feet from property zoned for resource use, or shall conform to this standard to the greatest extent possible. This requirement shall not be applied to setbacks adjacent to a public road, including unconstructed right-of-way, except when required by an approved conditional use permit.
